

COLLEGE & RESEARCH LIBRARIES

May 1960

Vol. 21, No. 3

**PUBLISHED BY THE ASSOCIATION OF COLLEGE AND RESEARCH
LIBRARIES, A DIVISION OF THE AMERICAN LIBRARY ASSOCIATION**

SECOND REPRODUCTION!

UNION LIST OF SERIALS IN LIBRARIES OF UNITED STATES AND CANADA

(Second Edition) Edited by Winifred Gregory.
N.Y., Wilson, 1943. Also First Supplement.

The first reproduction of this valuable out-of-print reference sold out quickly last year. Now, new master plates are being made, and completed copies will soon be ready. The page size is slightly smaller than the original *Union List* but completely readable, as shown below.

There are 3065 9½" x 13" pages in 4 volumes bound in boards for \$103.00. Order number is OP 465.

The first supplement to the *List*—6½" x 10"—casebound — \$22.00. Order number—OP 466.

UNIVERSITY MICROFILMS, INC.
313 N. FIRST STREET, ANN ARBOR, MICHIGAN

is history crumbling in your library?

It is if you own valuable old newspaper files which have not been microfilmed.

In spite of every precaution you can take to protect and preserve this historical material — the deterioration is inevitable and is going on right now in your library.

By their very nature, newspapers made of wood pulp will turn into masses of brittle, yellowed paper and crumble away . . . and even rag-content newspapers do not escape damage and eventual ruin from constant use, careless handling, clipping, and vandalism.

Stop this destruction of your priceless, irreplaceable historical material at once by having it put on microfilm.

In addition to preserving history — you'll save space, and get the ease, convenience and cleanliness of microfilm use, and you'll enjoy the faster reference.

But most important of all . . . because the microfilming was done by Micro Photo, specialists in archival newspaper microfilming, you'll have the assurance that now this material has been preserved in a form that will protect it against the ravages of time.

You'll gain more space —
much more space — with

COMPO

BOOK SHELVES

This is the heart of the Hamilton Compo System

Everything accessible; all types of books, records, films, charts, periodicals, newspapers, other items.

Without adding a square inch of floor space, Hamilton Compo stacks give you at least twice as much storage capacity as ordinary shelving.

When the sliding Compo shelf is pulled out, the books are more easily accessible than on a straight shelf—and when not in use, it slides back into the stack, out of the way. Books may be stored on both sides, and on the front compartment of the shelf. Moving

dividers make Compo adaptable to many items—which can be filed in vertical or horizontal position. Books are easier to identify and to handle.

Compo equipment is mechanically strong, operates easily and quietly, can be quickly installed—without basic structural changes. Write now for complete information on Compo, including stack, drawer, and construction details.
